

Ignited Minds has been conceptualized and designed by **YOUTHLINK**, a global organization for Youth Activism for the Celebration of International Youth Day on 12th August, 2012.

Pioneered by a group of students, **YOUTHLINK** today has branches in **7 countries** and **12 cities worldwide**, where talented youngsters stride ahead under its banner to make a difference to the world they live in. Creative workshops, meets and activities are flagged off under adept youth leadership. Events with social causes are given a priority and the sensitization of masses, training camps and the development of a scientific temperament are promoted.

Ignited MINDS, a quizzing extravaganza gives the Students a platform like never before to showcase their skills and offers them a scintillating opportunity to learn coupled with an incredibly enriching experience. Our aim is to bring out the best in Youngstaans and to further hone their latent talents once they come to the fore.

Fostering a spirit of healthy competition, camaraderie and enthusiasm, Ignited MINDS promises to be its unique best in terms of Infotainment.

Through this initiative we are trying to celebrate International Youth Day by identifying and recognizing, students with a vision on a shared national platform so that the little differences they make at their own levels can be integrated under one umbrella to herald a revolution.

“When your thoughts find expression, you miraculously discover another host of voices trailing behind on your path.”
