

Invitation

Carbon Majors funding Loss and Damage: Side Event

Tuesday 10th June 2014

15.00 – 16.30 h

Room: Solar (Ministry for the Environment - BMUB)

The Climate Justice Programme (CJP) and the Heinrich Böll Foundation (hbf) would like to invite you to the side event “Carbon Majors funding Loss and Damage” at the Bonn Climate Change Conference.

This side event will introduce the concept of the Carbon Majors (major fossil fuel entities) paying a levy to the International Loss and Damage Mechanism to fund the poorest and most vulnerable communities to deal with the worst impacts of climate change. A report on this exciting new concept, launched and available on 6th June, will be presented at this occasion. This side event is an opportunity to expose delegates to the concept, explore the legal and moral basis for it, and explore how it could work within the UNFCCC and specifically as an element of the 2015 agreement. We look forward to an engaged discussion!

Speakers:

- Facilitator: Lili Fuhr (hbf)
- Julie-Anne Richards (CJP) – presentation of the concept and the Carbon Majors levy
Yeb Sano (Philippines) – Philippines perspective and thoughts on concept
- Leanne Minshull (Greenpeace) – legal and litigation perspective
- Another party respondent (tba)
