CDP information

CDP is an international, not-for-profit organization providing the only global system for companies and cities to measure, disclose, manage and share vital environmental information. CDP's water program works with market forces, including 617 institutional investors with assets of US\$63 trillion, to motivate companies to disclose their impacts on water and take action to reduce them. CDP now holds the world's largest collection of primary corporate environmental data and puts these insights at the heart of business, investment and policy decisions. Please visit www.cdp.net or follow us @CDP to find out more.

For more information about the ILF, please contact Ms. Annelies Schenk at a.schenk@rai.nl M: +31(0)6 48782295
